Home Selling Essentials

Step 1: Prepare Your Property For Sale

Before you determine the listing price for your property and place it on the market, it's important for essential property repairs, cosmetic improvements and in some cases, major renovations to take place. This will help you maximize your financial return and increase the chance of it selling faster.

To ensure you prioritize your time and financial resources on projects that will maximize the value of your property, and avoid "over-improvements" that will do little or nothing to improve your home's value, consider the general guidelines below. Your Sotheby's International Realty Canada associate can then provide you with advice on the required updates and repairs specific to your property type and neighbourhood.

GENERAL GUIDELINES

- In general, homebuyers and real estate investors seek the least expensive property in the best neighborhood they can afford. Repairs and improvements should be made so the property shows well and is consistent with the neighborhood's standards and preferences. At the same time you should minimize capital investments and over-improvements that may not be recovered from the sale.
- If you have an older property, you may wish to get a professional home inspection before putting your home on the market. This will help you identify and address any major repairs that may be required.
- Unless you are prepared to significantly compromise on price, some home repairs are essential. These include repairs to broken mechanical and heating systems, siding and gutters, broken appliances, major fixtures and structural deficiencies such as leaky roofs.
- Cosmetic improvements, including fresh paint and landscaping, are quick and affordable ways to help a home "show" better and often result in positive returns.

EXTERIOR UPDATES

- Repair loose siding, damaged roof shingles, leaves, gutters and cracked windows for your home and garage.
- Secure loose shutters and awnings.
- Wash windows, gutters, mailboxes and doors.
- Repair cracked pavement and walkways on your property.
- Ensure lawns and gardens are attractive and well maintained.
- Sweep the entryway, porch and sidewalks daily.

INTERIOR UPDATES

- One of the fastest and most cost effective ways to update a home is with a fresh coat of paint. Repaint walls in a neutral colour with broad consumer appeal.
- Kitchen and bathroom renovations often result in a positive return on dollars invested. Consult your Sotheby's International Realty Canada associate for advice based on your property type and neighbourhood.
- Repair all broken appliances, fixtures, lighting and hardware, such as dripping faucets and showerheads, sticky doors, cracked tiles and broken appliances.
- Steam clean carpets or replace if necessary.
- Depersonalize your home so potential buyers can envision living in it. Remove personal photos, memorabilia and collections.
- Keep in mind that cluttered rooms and storage areas give the impression that they are much smaller than their actual size. Remove clutter from all areas and if necessary, put furniture and personal items into off-site storage.
- Clean every room thoroughly.
- Remove all items that won't be included in the sale of the home. This includes lighting fixtures or hardware.

Step 1: Prepare Your Property For Sale

CONDO DOCUMENTS

If you are selling a condominium, you will also need to prepare the detailed documentation relating to your unit and Strata Corporation in advance, as potential buyers and investors will request them in advance of writing an offer or before removing "subjects" on a Contract of Purchase and Sale. These include:

- Title search
- Registered strata plan
- Financial statements of the strata corporation
- Property disclosure statement
- Building envelope report
- Strata and AGM minutes for the past two years
- Other legal documentation required for your jurisdiction

KAREN AND WINSTON CAN ASSIST WITH THIS.

Step 2: Your Pricing Strategy

Ensuring your home sells at fair market value within a reasonable period of time is dependent on your pricing strategy. Karen and Winston will help you create the ideal strategy based on the following factors.

DETERMINE FAIR MARKET VALUE

Fair market value is the price a buyer is willing to pay for a home given its condition, recent comparable sales and listings, and the local real estate market.

COMPARATIVE MARKET ANALYSIS

To calculate the fair market value of your home, Karen and Winston will prepare a Comparative Market Analysis (CMA) report summarizing properties in your area with similar square footage, construction, age and condition that have recently sold or are currently on the market. Recent comparable sales and listings are two of the most important factors impacting fair market value. Comparable listings that expired before they had a chance to sell also offer an indication of the fair market value of your property.

Adjustments to your home's valuation will also be made given its location (e.g. proximity to parks, waterfront, schools and transportation), floor plan, home improvements, amenities, parking, storage and other variables.

EXTRAORDINARY HOMES

There some extraordinary homes and estates that have few or no comparable. In these cases, preparing a CMA requires specialized expertise that Karen and Winston can provide. If your property falls into this category, please visit conyers.ca to schedule a complimentary consultation.

LOCAL MARKET INVENTORY AND TRENDS

Other factors that may influence the fair market value of your home include whether it's trending towards a buyers' or sellers' market, the number of similar homes on the market, interest rates and the overall lending climate, the average number of days similar properties are on the market, and whether similar properties are selling for above or below the asking price.

Step 2: Your Pricing Strategy

OTHER FACTORS

Factors such as macro-economic trends, property appraisals or tax assessments may have some influence on the fair market value of your home; however, more often than not, this influence may be limited or inconsequential. For example, the assessed value of your property for tax purposes may be significantly higher or lower than its value on the real estate market. This is because buyers and investors will evaluate the value of your home against recent comparable sales listings, not against property tax assessments.

One factor that has no influence on your property's fair market value is the price you originally paid for your home. Even if you purchased your property recently, the local real estate market and the market value of your home may have dramatically changed.

PRICE YOUR HOME

Determining your home's listing price is one of the most critical decisions you will make in your sales and marketing strategy, and should be done in consultation with Conyers'.

Your recommended listing price will take into consideration your home's fair market value, adjustments for unique property attributes, neighbourhood market trends and appropriate pricing strategies given current market conditions. This may include:

- Pricing your home within the range of fair market value, slightly above actual sold prices of similar homes, but lower than the prices of comparable active listings.
- Pricing your home lower than fair market value in an attempt to incite a bidding war that results in a higher price.

THE RISK OF OVERPRICING

If you overprice your home above its fair market value, potential buyers and real estate investors will compare it unfavourably against recent comparable sales and listings. The risk is that your property will linger on the market for longer than what is typical for similar listings, stigmatizing it as an undesirable or blatantly over-priced property as a result.

Step 3: Marketing Plan Essentials

A decade ago, it may have been acceptable for a property's marketing strategy to be limited to a "For Sale" sign on a property, print advertising, local postcard drops and the loading of property details onto MLS.

Karen and Winston Conyers, experienced realtors in the White Rock real estate market, understand the importance of an online presence to connect with clients. With close to 90% of homebuyers using the Internet in their search, they leverage digital platforms effectively. Whether buying or selling, their expertise ensures a seamless and successful real estate experience for all clients.

Today's real estate buyers are local and international, and are looking for homes through traditional and digital channels. To achieve top dollar for your home, it's essential that you maximize the exposure of your property to them.

In addition to offering basic marketing services available through other real estate companies, Conyers' will build a customized marketing plan for your home that is tailored to reach the most relevant and qualified real estate buyers through online, social media, mobile, print and traditional marketing.

Step 3: Marketing Plan Essentials

STRATEGY AND TIMELINES

1. Agree on a listing price
2. Decide when to go to market
3. If necessary, do another market analysis at that time
4. Sign all the paperwork
5. Approx two weeks before the MLS active date order photos and floor plan
6. Try to organize both photos and floor plan for same day and time, but that doesn't always work
7. Order strata documents if strata property
8. Have everything in hand before the listing goes live on the MLS
9. On active day I email a copy to you to check over and then I'll make any necessary adjustments
10. The listing will then be entered into the Sothebysrealty.ca website and once approved, it will be activated on the Sothebysrealty.com website and feed out to the affiliates.
11. You will receive invitations to view the statistics weekly via the Folio account, and I will set up a seller's view on the MLS system for you to log into where it'll show activity via the MLS – such as number of viewings by Agents, Buyers and if the property has been favorited by Buyers, as well as neighbouring properties that are for sale
12. We can add you to a program called Homebeat that shows you what is happening in your area, homes that are similar to yours that are for sale and sold
13. We advertise regularly on our Instagram, Facebook, and YouTube channels, as well as Linked-In pages and Twitter.
14. We advertise in the local Real Estate Guide which is a monthly publication mailed to all households in our area, but is also accessible online
15. We have a preferred agent presence on REW.ca
16. And then we manage the showings.

Step 4: Showings and Open Houses

Once your home is listed on the market, Karen and Winston will advise you on how showings and open houses fit into the marketing and selling strategy and will work with you to facilitate them. They will also provide you with feedback on your property from prospective buyers so you can adjust the presentation of your home, or its price, accordingly.

To optimize the value of your home in the eyes of potential buyers and investors, it's important to ensure that your home is presented in the best possible light. Prior to any showings or open houses, complete the steps in the attached checklist, as well as any specific tips for your home from your REALTOR®.

PRE-SHOWING CHECKLIST

Please leave the house during a showing or open house to ensure that potential buyers have the chance to evaluate and experience the home at their leisure.

SECURITY

Step 5: Offer Basics

Karen and Winston will help you evaluate and negotiate offers from potential buyers in order to protect your legal interests, and to ensure you are optimizing the price and conditions surrounding the sale of your home.

OFFER DETAILS

The offer you receive will include: the legal name of the potential buyer(s), the legal name of the seller(s), the legal civic address of the property, the price the buyer(s) is offering to pay, desired inclusions (items in or around the home that the buyers wish to have included in the sale, such as appliances, lighting fixtures or window coverings), amount of the buyer's deposit, desired dates the potential buyer would like to take legal and physical possession of the home, legal "subjects" or "conditions" upon which the contract becomes final (such as satisfactory home inspection report or financing approval), and the date the offer expires.

POTENTIAL RESPONSES

You can respond to an offer in one of three ways:

1. Accept as is: your signature finalizes the contract and it becomes a binding legal contract.
2. Counter offer: you may make changes to the offer, such as adjustments to the price, closing date or conditions. When you do so, the prospective buyer may accept, reject or make another counter offer in response. Only when one of the parties signs an unconditional acceptance of the other party's offer does it become legally binding.
3. Rejection of the offer: you may simply reject the offer and the sale will not go through.

OFFER WITHDRAWAL

The buyer can withdraw an offer until the moment you accept in writing. If you are evaluating an attractive offer, it's important to note that timeliness is important.

OFFER ACCEPTANCE

Once both parties come to an agreement the offer is considered "accepted" and they will have a set period of time in which to satisfy the legal conditions ("subjects") agreed to in the contract, such as completing a satisfactory home inspection report or securing financing. Only after all subjects/conditions are removed do you have a legally binding document.

FIRM OFFER

An offer is considered firm once all subjects have been removed by both parties. The typical subject removal period is one week to 10 days, or as agreed to in the offer.

Step 6: Negotiating Offers

OFFER NEGOTIATION

Price is only one of many factors to weigh as you evaluate and negotiate an offer. Every situation is different. While you may be motivated to secure the optimal price given current market conditions, you may also need to weigh other considerations such as the convenience of the buyers' desired completion, possession and adjustment dates, their desired inclusions, the number of subjects or conditions attached to the offer, and the amount of the deposit.

Karen and Winston will help you assess each incoming offer to determine whether it's right one for your unique needs and circumstances.

BACKGROUND RESEARCH

With some investigation, your associate may also be able to help assess the potential buyer's background and goals for purchasing a property, which may assist you in negotiating a competitive price. For example, a buyer who has already sold their home and needs to move within a certain time frame may be willing to compromise on price if they can negotiate a date that coincides with the completion of their home sale.

MULTIPLE OFFERS

In high-demand, low-inventory areas, you may find yourself in a situation where there are several offers for your home. Some sellers in high-demand niche markets may also intentionally list their home at a low price hoping to stimulate multiple offers. This doesn't necessarily mean the price will be bid up significantly over the asking price, but it does mean that due diligence will be required on your part and the part of your REALTOR® to ensure you properly assess the strength and limitation of each offer, negotiate strategically to maximize the value you are able to get for your property, and to ensure you are protecting your legal interests in what may be a time-sensitive and complex negotiation process.

Step 7: Close the Deal

The closing or completion day is the day the buyer takes legal possession of the property.

PREPARATION

You will need to select a lawyer or notary to help you complete the sale. If required, your Sotheby's International Realty Canada associate can provide recommendations, and provide the lawyer with a signed copy of the contract.

As closing day nears, your REALTOR® and lender will monitor the progress of your transaction to ensure there are no last minute issues and concerns. You will need to arrange to meet with your legal counsel before the completion date to review and sign documents. Remember to bring photo identification and a personal cheque to this meeting to pay for legal costs.

COMPLETION (CLOSING) DAY

On completion day, legal ownership of your property will be transferred to the buyer. Your lawyer or notary will receive funds for the sale from the buyer's lawyer or notary, and your lawyer or notary will provide you with a statement of adjustments. This list itemizes all costs payable at completion, including legal fees, taxes and other completion costs. Finally, funds will be used to discharge your mortgage, if applicable, with any remaining proceeds transferred to you in the form of a bank draft.

CLOSING COSTS

Closing costs associated with selling a home include adjustments, real estate commission, mortgage discharge fee, capital gains tax (if applicable) and legal fees.

POSSESSION DAY

On possession day, Conyers' will help you coordinate the handing over of keys to the buyer.
